Employment Opportunities

Canada's aviation and aerospace industries offer a wide range of career options and opportunities including careers in private and commercial piloting, aircraft design and engineering, air traffic control, jet mechanics, airport operations and much more.

The 2019 Boeing Pilot & Technician Outlook, a respected industry forecast of personnel demand, projects that 804,000 new civil aviation pilots, 769,000 new maintenance technicians, and 914,000 new cabin crew will be needed to fly and maintain the world fleet over the next 20 years. The forecast is inclusive of the commercial aviation, business aviation, and civil helicopter industries.
